

IR Emitter/Receiver Kit (Includes IR Connecting Block Receiver, Surface Mount IR Receiver, Single IR Emitter and Power Adapter)

Our IR Emitter/Receiver Kit allows you to control your audio and video components from anywhere in the house. Put the IR receiver in any room and point your remote at the receiver, allowing the IR Kit to deliver your commands to your A/V components. The IR connecting block receiver will support up to 6 emitter output connections, allowing up to 6 A/V devices to be used, such as your DVD or Blu-ray player. The compact size of the kit allows it to be mounted near audio equipment.

Features

- Six emitter output connections to support up to six devices
- Convenient IR confirmation LED
- Status power receptacle with LED indicator
- Power receptacle with LED indicator
- Three conductor 1/8" receptacle for interfacing with many brands of freestanding IR receivers
- Large detachable IR receiver connection
- Compact size for mounting near audio equipment

Package Includes

- 1 x IR Connecting Block
- 1 x IR Receiver
- 1 x IR Emitter
- 1 x Power Adapter 12VDC 200mA
