IR Over Coax Cable Coupler

IR coupler relays commands from the IR injector, through a coax cable, to the IR emitter. The IR coupler has two IR emitter ports, which can support up to 4 A/V devices. Its main function is to be used as a simple IR repeater, allowing the user to control A/V devices that may not be in direct line of sight of the remote control. With the dependable use of the IR coupler, the customer will find that they can enjoy their home theatre experience in the most convenient manner.

Features

1. Power Supply Voltage: 12VDC, 200mA
2. Maximum number of targets: 4
3. Maximum distance to emitters: 200 ft
4. Drop Test: One corner, three edges and six faces above 76.2cm height without damage
5. power adapter Included
