It is designed to display results in wire-mapping format

LANtest-E features a brand new compact design with the functions of the original LANtest. It is portable, easy to use, and provides crystal-clear results. LANtest-E maps actual wiring configurations for 10/100/1000 BASE-T cables, BNC cables, RJ45/RJ11 modular cables. With the included Remote unit, one-person testing of cables installed in walls or patch panels is easy.

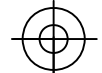

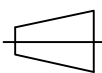

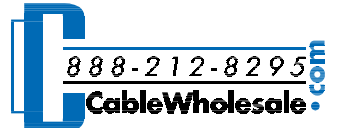

Features

- Pin-to-pin wire-mapping for RJ45, RJ11, BNC cables, Cat5, Cat5E, Cat6 and Cat7 cable
- Dual-speed testing
- Compact and light-weight design
- Remote attached to main unit for carrying/storage convenience

RoHS
